### **Our commitment to quality**

We use two broadcast quality cameras with one operator. One camera is used for a static wide angle and the other one for close-ups and moving around with the operator. Sound quality is important, so we use both an ambient microphone and a sound feed from the venue's public address system. Editing of sound and video takes place in a professional studio editing facility.

### **What do you get?**

Your DVD will be approx. 1 hour long and will have a menu and a photo slide show.

All footage taken on the day will be given to you, unedited, on tape.

10 x copies of your DVD with a personalised label.

### **Other Information**

Your friendly camera operator will listen to your needs and will remain as unobtrusive as possible

You are free to duplicate your DVD for family members and friends etc

Your edited DVD will be ready to collect 7 days after your wedding.

Basic changes after the DVD is finished are allowed without extra cost. Major changes will cost R250 per hour. These changes can be made within 30 days of your wedding.

Please supply any special songs you have chosen to use on the day, on disc, so that it can be imported to the DVD in high quality.

A travelling fee will be charged at a rate of R3.50 per km unless your venue is within a 30km radius from Pretoria.
